Mevo Start

The Mevo Start is a wireless, all-in-one live streaming camera designed for ease of use. It allows users to stream in 1080p HD resolution. With app-controlled live editing, it can stream or record for up to 6 hours. Available to purchase as a single camera or 3-pack bundle, it's easy to stream in real time and create compelling multi-camera content.

logitech®

- **High-quality hardware, high-quality video:** Offers High Dynamic Range (HDR) for stunning image quality, white balance presets, and options for custom or auto exposure to suit various lighting conditions.
- **HD audio:** Incorporates three internal mics for spatial processing and high-quality AAC processing at 48kHz, 16-bits. External inputs include a 3.5mm TRS input for analog mic or line-level sources and systems, as well as a USB-C audio input.
- **Easy connectivity:** Connects wirelessly to a Wi-Fi network for streaming. Can also set up a camera as a hotspot and use a cellular connection to stream. For wired connections, connect over USB as a webcam, stream over Ethernet using a Power over Ethernet (PoE) adapter for both power and network access.
- **Reliable streaming & recording:** Streams to one or multiple platforms¹ at 1080p natively or via RTMP. Record locally via a MicroSD slot with resolutions up to 1080p simultaneously while streaming.
- **Long-lasting performance:** Includes a large built-in battery that can support streaming or recording for up to six hours. A USB-C port allows flexibility for external power.
- **Flexible mounting options:** Features a multi threaded mount on the bottom of the camera, making it compatible with a wide range of mic stands, tripods, and camera accessories, ideal for virtually any setup or location, even when mounted inverted.
- **Streamlined Control:** Facilitates professional, multi-camera livestreams with ease with the Mevo Studio app. Empowers anyone to produce high-quality content—wirelessly connecting multiple Mevo cameras, webcams, NDI sources, and media. Add graphics, countdowns, and presentations, then stream or record effortlessly to your platform of choice.

Dimensions	Width	1.3 in (3.4 cm)
	Height	3 in (7.55 cm)
	Depth	3.4 in (8.7 cm)
	Weight	8.2 oz (232 g)
	Cable length	2 meters
	USB connectivity	USB-A to USB-C
	Privacy shutter	No
General Specifications	Mounting options	Compatible with 5/8"-27 microphone stands. Includes adapter for 1/4"-20 and 3/8"-16 standard tripods.
	Color	Black
	Battery	Up to 6 hours of battery life
	Connectivity	Wi-Fi: 802.11ac @ 2.4GHz/5GHz, dual antennas, 2x2 MIMO Access Point Mode: Camera can create its own Wi-Fi network Join existing Wi-Fi networks for streaming LTE: Via connected mobile device using Mevo mobile app Ethernet: Supported via USB-C Ethernet power adapter Power over Ethernet (PoE) also supported via adapter USB-C: Connects directly to computer as a webcam (UVC)
	Bluetooth	Bluetooth 4.1 - BT and BLE compatible
	I/O	USB-C 3.5mm TRS Micro SD slot
	Memory card compatibility	Micro SD (SD, SDHC, SDXC), memory not included
	Button	Rear button used to power on-off, start/stop streaming and/or recording (configurable via app), enable/disable UVC mode
	Indicator	Front RGB LED tally light Four white battery indicator LEDs
	Speaker	Buzzer
	Operating temperature	0°C to 35°C (32°F to 95°F)
	Other info	Additional features and functions accessible via Mevo native applications: - Mevo Camera app - Mevo Studio app - Mevo Wireless Webcam app

Video	Max video resolution	Recording up to 1080p30 30mbps Streaming up to 1080p30 15mbps
	Camera megapixel	2.07 Megapixels
	Focus type	Fixed
	Lens type	Low distortion 8 elements f2.8 Focal length 3.6mm
	Diagonal field of view (dFoV)	83.7 degrees (diagonal)
	Digital zoom	Yes
	Video codec	H.264 and HEVC
	Aspect ratio	16:9
	Electronic image stabilization	Yes
	Vertical image flip	Yes
	HDR	Yes
	Video output	Direct to streaming platform - integrated API or RTMP(S) via app USB-C (UVC): Stream as webcam to computers NDI®-enabled: IP-based video streaming SRT-enabled: Secure, low-latency IP streaming MicroSD: Local recording of video
	Exposure metering	Center Average Spot
	White balance control	Auto Manual via app Preset via app
Audio	Exposure compensation	Auto Manual adjustment from -3.0 to +3.0 EV via app
	Streaming bandwidth requirements	Full HD (1080p) : Requires a minimum steady upload speed of 6Mbps. Test upload speed at your intended streaming location using Fast.com.
	Built-in audio	Yes
	Built-in mic	Three MEMS microphone array with Fraunhofer upHear® spatial microphone processing
Warranty	External audio input	3.5mm TRS input jack on camera USB audio interface via USB-C Microphone connected to mobile device Mevo Go app (wireless audio from mobile device)
	Audio codec	AAC - 48kHz, 16-bit at 128mbps bitrate
Warranty	Warranty	2 year limited hardware warranty
